Your business is doing fine. It could be doing much better.

Nothing is broken. It just isn't performing the way it could, and you know it. You don't have to wait for a crisis, or a sale, to fix it.

WHAT WE HEAR

"Everything still runs through me."	We build the roles, the reporting and the rhythm so decisions don't all wait on you.
"I don't fully trust my numbers."	Monthly results you can rely on, closed on time, with weekly KPI and cash updates in between.
"We're busier, but we're not earning more."	We find where margin leaks, by customer, product and job, and fix pricing and cost first.

SIGNS IT'S TIME

Cash is tight
Even as revenue grows

You can't step away
Every decision waits on you

Numbers arrive late
Or nobody fully trusts them

Margins are slipping
And it's not clear why

No written plan
No budget, no targets

Key people are stretched
Growth has outrun the team

Thinking about a sale or transition
To a buyer, family, management or an ESOP. The work starts well before.

Most owners aren't ignoring the problem. They lack what it takes to fix it alone.
